

**PIVOTAL RESPONSE TREATMENT TRAINING AND CERTIFICATION LEVEL I:
AWARENESS OF PRT RESEARCH AND METHODOLOGY**
Introduction to Pivotal Response Treatment for ASD

To be certified in Pivotal Response Treatment (PRT) at Level I, individuals must either attend the Annual PRT Conference or participate in our Remote PRT Training and Certification Program, outlined below.

Objective: The objective of the Level I PRT Training and Certification Program is to increase participant awareness of Pivotal Response Treatment (PRT) research and methodology for children and adolescents with ASD across each procedural area of intervention.

To be certified at Level I, participants must review the required reading materials, view an online video training module, and pass an 'open book' written exam.

Summary of Process: Generally speaking, within the Level I Program:

- (1) TO REGISTER: Participants complete and submit (via email or mail) the Level I Registration Form and pay the Level I \$300.00 USD fee by sending a check to the address provided on the registration form or online with a debit card, credit card, or PayPal account.
- (2) Training materials are sent to the participant through mail (standard UPS shipping). Training materials include "Pivotal Response Treatments for Autism: Communication, Social, and Academic Development" (Koegel & Koegel, 2006), a research article, and access to an online video training module.
- (3) Participants work through the training materials at their own pace, and then complete a seven section 'open book' written exam covering PRT research and methodology.
- (4) Participants submit the completed exam through mail or email and the exam is assessed.
- (5) Participants receive a Level I Exam Report, including a score breakdown and written feedback.
- (6) When participants score 80% or higher on each individual section of the exam, they PRT certified at Level I.
